Lids for Kids.

I hope that those of you who are able are working on our Lid for Kids project. We will have a basket at the next meeting to begin collecting the hats that you have knitted, crocheted, sewed or purchased.

The Internet is a great place to find patterns. I just searched crocheted baby hat pattern.

I made the 5 hats shown here in the last week and I had never crocheted a hat before. Barbara

Mark your calendar for our October 24th meeting. We will have our official visit from our Deputy.

Contact me if you need a pattern or a webpage address.

August 25th is National Dog Day.

The dog is a domesticated descendant of the wolf. The dog is derived from an ancient, extinct wolf and the modern wolf is the dog's nearest living relative. The dog was the first species to be domesticated by hunter-gatherers over 15,000 years ago, before the development of agriculture. Due to their long association with humans, dogs have expanded to a large number of domestic breeds and gained the ability to thrive on a starch-rich diet that would be inadequate for other canines. Dogs perform many roles for humans, such as hunting, herding, pulling loads, protection, assisting police and the military, companionship, therapy, and aiding disabled people.

"Man's best friend" is a common phrase used to describe domestic dogs, referring to their millennia-long history of close relations, loyalty, friendship, and companionship with humans.

Senior citizens are constantly being criticized for every conceivable deficiency of the modern world, real or imaginary. We know we take responsibility for all we have done and do not try to blame others.

HOWEVER, upon reflection, we would like to point out that it was **NOT** senior citizens who

took:
The melody out of music,
The pride out of appearance,
The courtesy out of driving,
The romance out of love,
The commitment out of marriage,
The responsibility out of parenthood,
The togetherness out of the family,
The learning out of education,
The service out of patriotism,
The Golden Rule from rulers,
The nativity scene out of cities,
The civility out of behavior,
The refinement out of language,
The dedication out of employment,
The prudence out of spending and saving.
The ambition out of achievement or
God out of government and school.

And we certainly are NOT the ones who eliminated patience and tolerance from personal relationships and interactions with others!

And, we DO understand the meaning of patriotism, and remember those who have fought and died for our country. And stand at attention with our hand over their hearts, as the American Flag passes by in a parade!

Help the puppy find his way out.

President Dwight D. Eisenhower then signed a proclamation naming Hawaii as the 50th state on August 21, 1959

The first known settlers of the Hawaiian Islands were Polynesian voyagers who arrived sometime in the eighth century. In the early 18th century, American traders came to Hawaii to exploit the islands' sandalwood, which was much valued in China at the time. In the 1830s, the sugar industry was introduced to Hawaii and by the mid 19th century had become well established. American missionaries and planters occupied the islands and brought about massive changes in Hawaiian political, cultural, economic and religious life. In 1840, a constitutional monarchy was established, stripping the Hawaiian monarch of much of his authority.

In 1893, a group of American expatriates and sugar planters supported by a division of U.S. Marines deposed Queen Liliuokalani, the last reigning monarch of Hawaii. One year later, the Republic of Hawaii was established as a U.S. protectorate with Hawaiian-born Sanford B. Dole as president. Many in Congress opposed the formal annexation of Hawaii, and it was not until 1898, following the use of the naval base at Pearl Harbor during the Spanish-American War, that Hawaii's strategic importance became evident and formal annexation was approved. Two years later, Hawaii was organized into a formal U.S. territory. During World War II, Hawaii became firmly ensconced in the American national identity following the surprise Japanese attack on Pearl Harbor in December 1941.

Located in the Pacific Ocean about 2,000 miles from the U.S. mainland. It is the only U.S. state outside North America, the only state that is an archipelago, and the only state in the tropics. Hawaii comprises nearly the entire Hawaiian archipelago, 137 volcanic islands spanning 1,500 miles (2,400 km) that are physiographically and ethnologically part of the Polynesian subregion of Oceania.
