## JULY 2022 WEEKLY READER #3

-----

- VOL.4 ISSUE. 28

24<sup>th</sup> – OES Tea 1pm  
25<sup>th</sup> -TMRC Daylight Chapter 1145 at  
1:30 pm .

### July Birthdays

15 Tricia Henderson  
19 Mary Tomlinson  
28 Rowena DeLano

### July Facts

Zodiac - Cancer (June 21 – July 22) Leo (July 23 – August 22)  
Birthstone – Ruby  
Flower- Lily

Grab a pencil and piece of paper.  
How many words can you make  
using the letters in “**One small  
step**” We found 99!

## JUMBLE

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

AGREW  
DUYMD  
RUSASE  
NOCUBE

Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

Print answer here “  -  ”

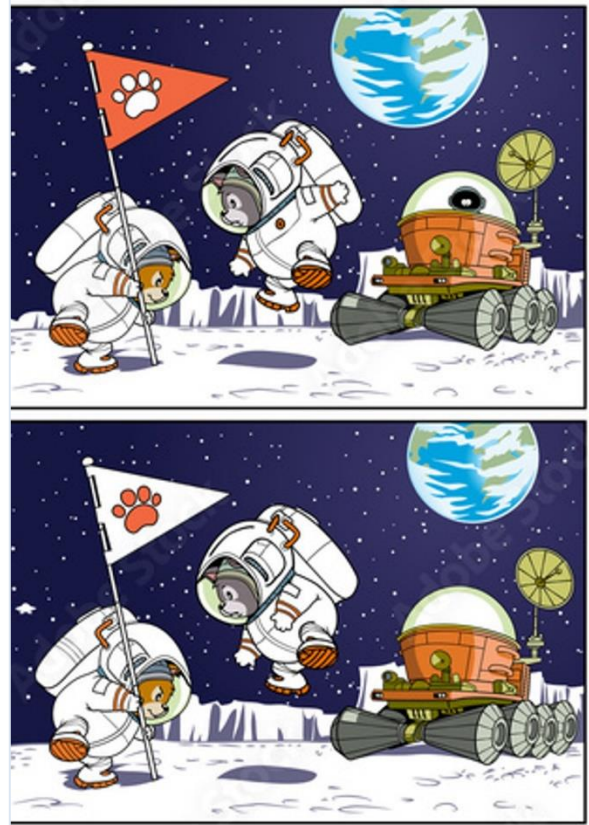

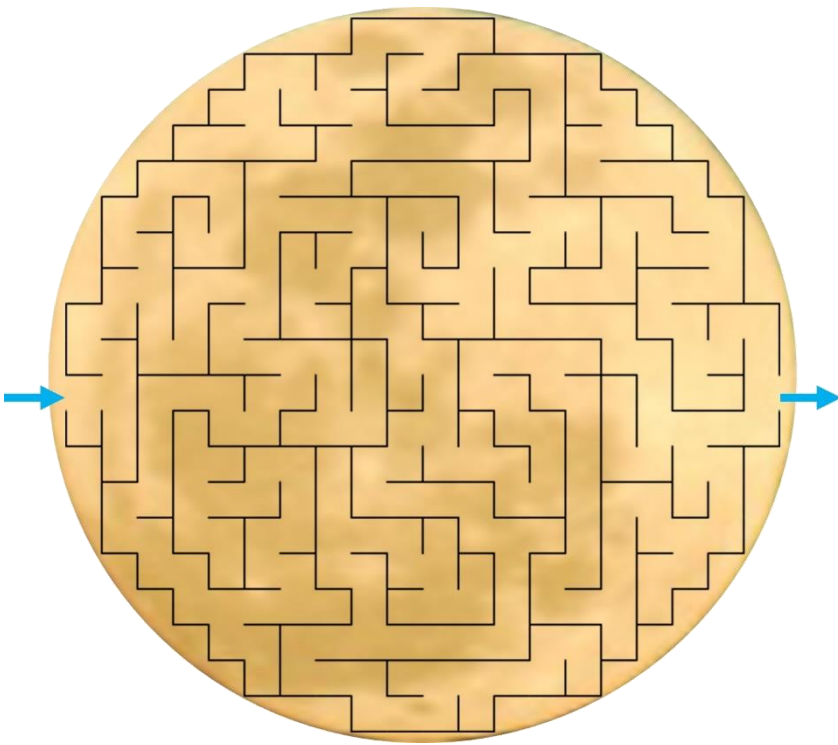

Do you remember where you were On July 20, 1969? On that day American astronauts Neil Armstrong and Edwin "Buzz" Aldrin became the first humans ever to land on the moon. About six-and-a-half hours later, Armstrong became the first person to walk on the moon. As he took his first step, Armstrong famously said, "That's one small step for man, one giant leap for mankind." (...more next page)

## WORDS FOR OR ABOUT THE MOON

(... cont'd) After traveling 240,000 miles in 76 hours, Apollo 11 entered into a lunar orbit on July 19. The next day, at 1:46 p.m., the lunar module Eagle, manned by Armstrong and Aldrin, separated from the command module, where Collins remained. Two hours later, the Eagle began its descent to the lunar surface, and at 4:17 p.m. the craft touched down on the southwestern edge of the Sea of Tranquility. Armstrong immediately radioed to Mission Control in Houston, Texas, a now-famous message: "The Eagle has landed."

At 10:39 p.m., five hours ahead of the original schedule, Armstrong opened the hatch of the lunar module. As he made his way down the module's ladder, a television camera attached to the craft recorded his progress and beamed the signal back to Earth, where hundreds of millions watched in great anticipation.

At 10:56 p.m., as Armstrong stepped off the ladder and planted his foot on the moon's powdery surface, he spoke his famous quote, which he later contended was slightly garbled by his microphone and meant to be "that's one small step for a man, one giant leap for mankind."

There would be five more successful lunar landing missions, and one unplanned lunar swing-by. Apollo 13 had to abort its lunar landing due to technical difficulties. The last men to walk on the moon, astronauts Eugene Cernan (1934-2017) and Harrison Schmitt (1935-) of the Apollo 17 mission, left the lunar surface on December 14, 1972.
