March's Birthstones

March has two birthstones, not unlike some of other months. Aquamarine is the first birthstone for the month, which symbolizes youth, health, and hope. Bloodstone, which looks very different from aquamarine, is a type of quartz known for its fiery flecks of red, representing strength and stealth.

Remember When

Riding In Airplanes Was Like Flying In A Five-Star Hotel

Unless you're flying first class, and even if you are, many people still dread going on airplanes. They're cramped, the food is bad, you're packed in like sardines with strangers, and the whole process is stressful. However, back in the 1940s, riding in an airplane was a luxurious experience, at least for those who could afford it. Passengers traveled in style and were treated like royalty, having all their needs met by a finely-dressed crew.

What is the story of St Patrick day?

St. Patrick's Day was originally celebrated in Ireland with religious services and feasts in honor of St. Patrick, one of Ireland's patron saints. When Irish immigrants brought St. Patrick's Day traditions to the United States, the day evolved into a secular celebration of Irish culture

Why do we wear green on St Patrick's day?

Irish immigrants believed that wearing green made them invisible to leprechauns—the classic fairy creatures who pinch anyone they can see.
